NPB Not Plan Benefit

¹Pediatric Benefits – Apply to dependents through the age of 18

²Adult Benefits - Apply to Enrollees 19 and over

Out-of-Pocket Maximum means the maximum amount of copayments that a Pediatric Enrollee must pay for Benefits under this Program during a calendar year. If more than one Pediatric Enrollee is covered, the financial obligation for covered services is not more than the Family Out of-Pocket maximum. Once the amount paid by all Pediatric Enrollee(s) equals the annual Out-of-Pocket Maximum shown above, no further copayments are required by any of the Pediatric Enrollee(s) for the remainder of the Calendar Year for covered services.

Payment for services that are not covered under the Contract, are Optional, or are for upgraded treatment (such as precious or semi-precious metals and material upgrades) will not count toward the Out-of-Pocket Maximum, and payment for such services still applies after the Out-of-Pocket Maximum is met.

Record of payment for covered procedures should be kept by the Responsible Party. When the Out-of-Pocket Maximum has been reached; contact the Member Services Department at 877-877-1893 for instructions on how to submit proof that the Out-of-Pocket Maximum has been reached to LIBERTY Dental Plan.

Limitations:

- 1 Repair or replacement of restorations by the same dentist and involving the same tooth surfaces performed within 24 months of the original restoration are included, and a separate fee is not chargeable to the Enrollee by a the provider.
- 2 The covered restorations includes all related services including, but not limited to, etching, bases, liners, dentinal adhesives, local anesthesia, polishing, caries removal, preparation of gingival tissue, occlusal/contact adjustments, and detection agents.
- 3 Core buildups can be considered for benefits only when there is insufficient retention for a crown. A buildup should not be reported when the procedure only involves a filler used to eliminate undercuts, box forms or concave irregularities in the preparation.
- 4 Replacement of crowns, inlays, onlays, fixed partial dentures, implant abutments and crowns, buildups, and posts and cores is covered only if the existing crown, inlay, onlay, fixed partial denture, implant abutment and crown, buildup, or post and core was inserted at least five years prior to the replacement and satisfactory evidence is presented and cannot be made serviceable.
- 5 Fixed partial dentures ("bridges") for Enrollees under 16 years of age are not covered. (this includes pontics and retainer crowns D6200's and D6700's) Single Crowns, Inlays, Onlays, Crown buildups, and Posts and Cores for Enrollees under 12 years of age are not covered.
- 6 Onlays, inlays, crowns, fixed bridges, and posts and cores are covered only when necessary due to decay or tooth fracture. However, if the tooth can be adequately restored with amalgam or composite (resin) filling material, coverage is for that service.
- 7 Crowns, inlays, onlays, fixed partial dentures, implants, buildups, or posts and cores, begun within three months prior to the effective date of coverage are not eligible for coverage.
- 8 For reporting and benefit purposes, the completion date for crowns, onlays, inlays, and fixed partial dentures is the cementation date.
- 9 Pulpotomy is covered once per tooth per lifetime. Pulpotomy on permanent teeth not covered when root canal therapy is reported on the same tooth within 60 days.
- 10 Pulpal therapy is limited to primary teeth only and is payable once per primary tooth per lifetime
- 11 A single site for reporting osseous grafts consists of one contiguous area, regardless of the number of teeth (e.g., crater) or surfaces involved.

 Another site on the same tooth is included to the first site reported. Non-contiguous areas involving different teeth may be reported as additional
- 12 Guided tissue regeneration is covered only when provided to treat Class II furcation involvement or intrabony defects. It is not covered when provided to obtain root coverage, or when provided in conjunction with extractions, cyst removal or procedures involving the removal of a portion of a tooth, e.g. apicoectomy or hemisection.
- 13 Periodontal maintenance is only covered when performed following active periodontal treatment.
- 14 An oral evaluation reported in addition to periodontal maintenance will be covered as a separate procedure subject to the policy and limitations applicable to oral evaluations.
- 15 Services or treatment for the provision of an initial placement of a removable prosthetic appliance replacing a natural tooth or tooth missing within three months prior to the Effective Date of Coverage are not covered. This includes teeth lost or missing due to a congenital defect.
- 16 Removable cast base partial dentures (D5213 and D5214) for Enrollees under 12 years of age are excluded from coverage unless specific rationale is provided indicating the necessity for that treatment and is approved by LIBERTY Dental Plan.
- 17 For reporting and benefit purposes, the completion date is the insertion date for removable prosthodontic appliances immediate dentures, however, the dentist who fabricated the dentures may be reimbursed for the dentures after insertion if another dentist, typically an oral surgeon, inserted the
- 18 Adjustments provided within six months of the insertion of an initial or replacement denture or implant are included at no additional cost to the Enrollee when made by the same dentist.
- 19 With the exception of a new immediate denture, relining or rebasing is covered at no additional cost to the Enrollee within six months of a denture's initial delivery.
- 20 Coverage for a denture made with precious metals is based on the allowance for a conventional denture.
- 21 A fixed partial denture and removable partial denture are not covered benefits in the same arch is for a removable partial denture to replace all missing teeth in the arch.
- 22 Precision attachments, personalization, precious metal bases, and other specialized techniques are not covered benefits.
- 23 Replacement of removable prostheses is covered only if the existing removable prostheses was inserted at least five years prior to the replacement and satisfactory evidence is presented that the existing removable prostheses cannot be made serviceable.
- 24 Replacement of dentures that have been lost, stolen, or misplaced is not a covered service.
- 25 Removable prostheses initiated prior to the effective date of coverage or inserted after the cancellation date of coverage are not eligible for coverage.
- 26 Charges for related services such as necessary wires and splints, adjustments, and follow up visits are included to the fee for reimplantation and/or stabilization.
- 27 Routine postoperative care such as suture removal is included to the fee for the surgery.
- 28 The removal of impacted teeth is covered based on the anatomical position as determined from a review of x-rays. If the degree of impaction is determined to be less than the reported degree, coverage will be based on the allowance for the lesser level.
- 29 Removal of impacted third molars in Enrollees under 19 is not covered unless specific documentation is provided that substantiates the need for removal and is approved the Plan
- 30 Deep sedation/general anesthesia and intravenous conscious sedation are covered (by report) only when provided in connection with a covered procedure(s) and when rendered by a dentist or other professional licensed dentist and approved to provide anesthesia in the state where the service is rendered.
- 31 Deep sedation/general anesthesia and intravenous conscious sedation are covered only by report when determined to be medically or dentally necessary for documented handicapped or uncontrollable Enrollees or justifiable medical or dental conditions.

Limitations Continued:

- 32 In order for deep sedation/general anesthesia and intravenous conscious sedation to be covered, the procedure for which it was provided must be submitted
- 33 Deep sedation/general anesthesia and intravenous conscious sedation submitted without a report will be denied as a non-covered benefit.
- 34 For palliative (emergency) treatment to be covered; it must involve a problem or symptom that occurred suddenly and unexpectedly that requires immediate attention.
- 35 In order for palliative (emergency) treatment to be covered, the dentist must provide treatment to alleviate the Enrollee's problem. If the only service provided is to evaluate the Enrollee and refer to another dentist and/or prescribe medication, it would be considered a limited oral evaluation problem focused
- 36 Consultations are covered only when provided by a dentist other than the practitioner providing the treatment.
- 37 Consultations reported for a non-covered benefit, such as Temporomandibular Joint Dysfunction (TMJD), are not covered.
- 38 After hours visits are covered only when the dentist must return to the office after regularly scheduled hours to treat the Enrollee in an emergency situation.
- 39 Therapeutic drug injections are only covered in unusual circumstances, which must be documented by report. They are not benefits if performed routinely or in conjunction with, or for the purposes of, general anesthesia, analgesia, sedation or premedication.
- 40 Preparations that can be used at home, such as fluoride gels, special mouth rinses (including antimicrobials), etc., are not covered benefits.
- 41 Occlusal guards are covered by report for Enrollee 13 years of age or older when the purpose of the occlusal guard is the treatment of bruxism.

 Occlusal guards are limited to one per 12 consecutive month period.
- 42 Services are limited to medically necessary orthodontics when provided by a Contract Dentist and when necessary and customary under generally accepted dental practice standards. Orthodontic treatment is a benefit of this Plan only when medically necessary as evidenced by a severe handicapping malocclusion for Enrollees under the age of 19 and shall be prior authorized by the Plan.
- 43 Orthodontic procedures are a benefit only when the diagnostic casts verify a minimum score of 26 points on the Handicapping Labio-Lingual Deviation (HLD) Index or one of the automatic qualifying conditions below exist.
- 44 The automatic qualifying conditions are:
 - a Cleft palate deformity. If the cleft palate is not visible on the diagnostic casts written documentation from a credentialed specialist shall be submitted, on their professional letterhead, with the prior authorization request.
 - b A deep impinging overbite in which the lower incisors are destroying the soft tissue of the palate,
 - c A crossbite of individual anterior teeth causing destruction of soft tissue,
 - d Severe traumatic deviation.
- 45 The following documentation must be submitted to the Plan with the request for prior authorization of services by the Contract Dentist:
 - a ADA 2006 or newer claim form with service code(s) requested;
 - b Diagnostic study models (trimmed) with bite registration; or OrthoCad equivalent;
 - c Cephalometric radiographic image or panoramic radiographic image;
