

Dear Senators Pan & Mitchell

I am a California Dentist and – and a Sacramento resident – and I need you to be a champion for GMC plans. Without the SAC GMC / LA PHP programs, patients will have a hard time finding dentists who accept Medi-Cal alone. Thousands of patients will be impacted. They will be lost and in pain and, in many cases, will only be able to go to an already overly crowded emergency room for help. There won't be enough dentists to serve these families and this will have a dramatic impact on the healthcare system overall. Eliminating these programs would be a mistake! I urge you to protect them.

Sincerely,

---
