

To Whom It May Concern:

My name is Mark Befort. I am the supervisor of the Family and Child Wellbeing Program at Roybal Family Mental Health Center. I would like to share that Liberty Dental Plan personnel came to our clinic last Fall and spoke with a group of our parents and their children regarding the importance of dental hygiene—which included demonstrations of how best to brush teeth for best results and optimum health and also other important general information regarding how dental health impacts over-all health. Our parents and families in attendance were full of questions and the children also got a lot out of the presentation and learned a lot! We would very much like Liberty Dental Plan or other similar providers to return since we only were able to reach a very small number of our families in attendance on that occasion and since such basic information is so sorely needed by our children, parents and families. Please continue the funding for this very useful and important outreach program concerning dental health education!

Thank you

Mark Befort, MHCS

Mental Health Clinical Supervisor
