Subject: Dental Managed Care

Good Evening,

I am writing to you today regarding Sacramento County Dental Managed Care Program. I am a participating provider and would like to see this program stay. I understand that there is a debate whether to keep the program or not. From my Perspective, the Dental Managed care Capitated Program allows me to offset the costs of running my Dental Office and also providing quality healthcare to my patients. My vote is for Managed Care plan to stay and not change it to Dental Fee for Service Model.

Sincerely,

Harpreet Tiwana DDS
