To whom it may concern:

I write on behalf of Be Social Productions in support of Liberty Dental Plan, we have been working with them for the last four years with great success. They have played a major role participating in several of the community events that we produce, therefore they have become a valuable partner helping us giving information about oral and preventive health and providing dental screenings to the Hispanic low-income community. Just in one event, they served more than 3,000 people.

In that matter, we would like for the Dental Managed Care Plans to continue as a dental option for MediCal. We are concerned that members of our community will not have the resources and will not know where to find insurance providers that are affordable to them.

We are sure that working together we will contribute to eliminate health disparities in our community and achieving health equity.

Sincerely,
